B.3 Optional Plays – ‘Encore’ option in Canadian lotteries

When purchasing the lotto and some other games in Canada, played by picking numbers, an optional play called Encore is available for an additional \$1. The lottery’s central computer generated seven digits for each Encore play made. You can play up to ten Encore plays with each ticket for another lottery. The Encore numbers are printed on the ticket of that other lottery purchased. Prizes are won for 22 kinds of matchings as shown in Fig. B.1 (Ontario Lottery Corporation brochure, 2019).
